IN CITY COURT. Taftville Man Was Fined and Went to

Jail on Assault Charge. Charles with an alleged attempted assault upon Miss Flora St. Germaine. years of age, of Baltic, rank Lauriat of Taftville, also 19, was fined \$5 and osts by Judge Brown in the city court on Wednesday. According to the testimony Lauriat met the girl and her sister in Baltic and he asked them to take a ride. The elder sister refused to go, but Flora accepted the invitation and they drove off towards Scotland road. This was Sunday evening at 7.30 o'clock.

According to Miss St. Germaine's story, Lauriat started to abuse her and she jumped out of the wagon and ran for a distance with Lauriat chasring her. She went to a farmer's house and he drove her to a trolley car and paid her fare to this city. Late Sun-day night she was found by Policeman McFadden wandering about the West Side, and he placed her in the woman's room at the police station. She was sent to her home Monday morning.

Lauriat admitted that he took the girl out in the carriage, and that she was willing to go with him. He said his hat fell into the road near the Scotland road schoolbouse and that he Scotland road schoolhouse and that he got out to get it. He asked Miss St. Germaine to take a walk, but she re-fused and later she got out of the car-

riage and would not return. He said he told the girl he would take her home, but she refused to go with him-Judge Barnes decided that it was a case of simple assault and imposed the fine above mentioned. Lauriat talked with his three brothers, his lawyer, E. T. Burke, and the brothers decided that they would go home and try to get the necessary funds to pay the fine with from their mother, who works in the Tattville mill. SOUTH AMERICA TRADE WAITING

Leopold Grahame Tells Board of Trade-American Manufacturers Have Opportunity Before Them-Effort to Go After it is What is Needed-Ships and Banking Facilities; too, Must be Adequate.

Invitation For South American Trip.

A communicataion from a meeting of mayors in Baltimore was read by Secretary Tibbits, conveying an invitation for the board of trade or city to have a representative on a commercial cruise which is planned to be made entirely around South America in order to study and get acquainted with business conditions in the South America in cessful business with the Letter of the Countries of the Volume of trade.

Trial Shipment Will Pay.

Mr. Grahame advised that the way for the United States manufacturers to South America with capable representatives, and the manufacturers would find that this would surely pay.

Direct Contract Necessary.

ican cities.

President Macpherson advised that further information ought to be obtained before taking action, and on the further suggestion by Ebeneur Allen and motion by A. A. Browning it was voted to have the chair appoint a committee to report at the next meeting. It was oted also that the chairman constitute

the committee.
President Macpherson addressed the President Macpherson addressed the 50 men present and said that he believed the year 1914 would rightly be considered the most portentous of many and while war was devastating Europe we have had our own vicissitudes, but the secretary had been recently informed that no city of equal population had shown so little non-employment and other indications of unsettled business conditions. If we rightly considered our situation, we surely have reason to be thankwe surely have reason to be thank-

Business With South America. President Macpherson introduced Mr. Grahame, who was to speak upon the topic Business Relations With Latin-American Countries. The president mentioned that Mr. Grahame was a recognized authority upon South American topics and had been an editor in Euenos Ayres and the Associated Press representative upon Senator Hoot's trip to South America.

In beginning his instructive address which held the close attention of his hearers, Mr. Grahame quoted as follows from what the Argentine am-bassador had said recently at Phila-

delphia;
"The possibilities offered by the pur-

for export to South America and these were shown in exhibitions for the benefit of British manufacturers. while the business men of America were being regaled with speeches, banquets and suggestions from people who give but very meagre and confusing information on the subject.

No Abnormal Conditions to Meet. There are no abnormal conditions to be met in getting the South American trade. Shipping is a matter of first

But the shipping now plying between North and South America is not in condition to compete, either in canacity or speed, with the fleets of the European countries. The first thing to secure is adequate shipping facil-

At the present time mail is very slow to and from South America. The speaker said he had just received a etter from Buenos Ayres dated July 5. This was making good time.

Banking and Credits. Equally important as an element in the effort to secure a larger share of trade in South America are the questions of banking and credits. The in-itial step of the National City bank in itial step of the National City bank in opening branches in the leading South American cities was an excellent beginning. But it was imperative if business is to be done on anything like a large scale that the banking arrangements like the trade itself must be widely distributed throughout the country and not limited to a single bank institution or group. The prothe first schedule made out. The bank institution or group. The promeetings are to be held at Bosrah visions of the federal reserve act centre Congregational church, the should mark a new era in the commercial relations of North and South town hall at Franklin and before the North ington grange. At the Bozrah meeting Rev. J. C. Young the astor of the church will preside and the speakers will be Mrs. Edward Porritt of Hartford and Miss Isabel Sanders. Rev. C. P. Capshaw will preside at the Franklin meeting and Miss Alyse Gregory and Dr. Esther Woodward will be the speakers. At the grange meeting Miss Emily Pierson and Miss Harriet Rogers, the latter of New London, will make the addresses.

Cial relations of North and South America. Under that enactment national banks are not only permitted to establish branches in foreign countries but all member banks have conferred upon them the authority to discount or otherwise negotiate sound commercial paper, which each bank in turn may rediscount with a reserve bank. This practically means that American bankers will henceforth enjoy the privileges previously held exclusively by European banking institutions.

On the Question of Gredits. On the subject of credits Mr. Gra-hame pointed out that although at the present time, owing entirely to the abnormal condition created by the war, a longer term of credit might be re-quired than in the case in the ordinary course of trade, the statement that unduly long credit was an indispen-sible condition to trade with South America was not altogether a correct version of the case. Merchants and importers in South America are accus-tumed to buying their merchandise on 50 days sight draft; but that term

That South American trade, amounting to untold millions can be shared in by American manufacturers if effort is made to get it, now that the supply from Europe is cut off by the war between the European nations was what Leopold Grahame of New York told the November meeting of the board of trade Wednesday evening. The meeting was held at 8 o'clock in the large dining room of the Wauregan house,

President James C. Macpherson called the meeting to order just after so'clock and Secretary Henry W. Tibbits read the minutes of the last meeting which were approved.

New Members,

Applications for membership were presented and accepted from W. Russell Eard and Russell E. Hunt.

Invitation For South American Trip.

Direct Contract Necessary.

Direct contract between exporter and importer is the one key to successful business with the Latin-American countrie. Mr. Grahame affirmed.

As to cotton goods it seems strange that Great Britain which imports all its cotton goods can supply these countries against the United States, competition. The truth is that it is a question of effort, and the American manufacturer has been frightened out manufacturer has been frightened out by the feeling he had that these coun-tries were unsettled and unsafe to do business in. But this condition is all past now, and effort on the part of American manufacturers will be rewarded beyond all our expectation

What Needs to Be Done. What has to be done by American manufacturers if they wish to seize the magnificent opportunities now presented for a great extension of their commercial relations in South America is to have personal representation and is to have personal representation and demonstration of the wares they wish to dispose of. As far as investigations of the standing of merchants are concerned it is only necessary to say that such well known commercial agencies as R. P. Dunn have been established there for many years.

In Conclusion.

His concluding words were: Gentle-men: Find out, if you do not already know, what the people down there require and take it or send it down and you will find a ready market. The trade between North and South America should be ten times larger than it is at present, with the possibilities of a considerable augmentation in the not

delphia:

"The possibilities offered by the purchasing power of Argentine commerce are well worthy of positive effort—not words, but action, not wishes, but will. I do not believe I am wrong when I say that the Argentine Republic offers to American manufacturers today a consumption market of not less than \$100,000,000 over and above the present exports to our country, and to obtain such a result it would be worth while to expend in action a part of the effort now spent in more or less theorecical methods in thinking of it."

If the opportunity is seized, a permanent and a growing tradegraph of the purchase of the control of the effort now spent in more or less theorecical methods in thinking of it."

After Mr. Grahame had finished speaking, President Macpherson said that the speaker would be giad to answer any questions and several were put to him. These were along the line of the English banks, which Mr. Grahame said were very strong, and whether the use of the metric system had not operated to favor Germany and other European countries. He said that he did not think this had much to do with it, but that possibly unscrupulous American salesmen had much to be with unfavorable experiences that South American goods. Answered Some Questions.

The opportunity to hear Mr. Gra-hame was one that was appreciated by the Board of Trade members. He is translator and co-author with Gen-eral Reyes, ex-president of the repubic of Colombia, of the book The Two Americas, and was the special corre-spondent of The Associated Press with Senator Root upon his official tour through some of the states of South America

Frank Edward Johnson Spoke. Following the talk upon South American trade relations, President Macpherson introduced Frank Edward Johnson to speak upon some of his recent experiences in Europe. The president referred to Mr. Johnson as a distinguished citizen who had previously been given the public testi-monial of a crowd that overflowed the hall when he spoke upon a former oc-

casion here.

Mr. Johnson's complete address in full is given in another column. Both the speakers were given rising votes of thanks, and when the meeting ad-journed after Mr. Johnson had speken a buffet lunch was served.

Mr. Carroll will also provide the fixin's for the turkey dinners at the Shelterfor the turkey dinners at the Shelter-ing Arms, the New London County Home and the Rock Nook Home. Mrs, Frank A. Mitchell has in charge the matter of arranging for the Thanks-giving feasts and through Mr. Car-roll's generosity she is able to give the inmates all that may be desired in the way of dainties and necessi-ties.

At the New London County Hor there will be a tempting feast for the 71 inmates, thirteen of this number having just returned from the Backus hospital where they were confined in the isolated ward because of scarlet fever. There are yet nine more at the hospital who are unable to return to the home. Mrs. F. A. Mitchell has worked in confunction with the ma-tron and the turkey disner will be served at 1 o'clock.

The following programme was carried out at the home Wednesday afternoon in anticipation of Thanksgiv-

tomed to buying their merchandise on 90 days sight draft; but that term of credit in the past invariably meant five or six months to the American shipper as a result of the delays and difficulties of speed of the ships trading between North and South. But with ships of higher speed and capacitaty than those now operating the term of credit to be given would necessarily he considered lessened.

Business integrity in South America. Mr. Grahame attested to the business integrity of the South American countries, giving as an example the way the Argentine Republic assumed a big mass of debts incurred to Europe by the individual states. In recognition of this action a big silver statue was presented to the Republic by the bankers of Europe.

Like Any Other Trading Ground.

Mr. Grahame dwelt strongly upon the fact that beyond the drawbacks. Harvest Song: Thanksgiving Day,

Get the Stage Secret of Healthy Hair

Though wigs are often used in special parts played by actresses, it is a notable fact they all have beautiful, natural hair which is the result of sensible care only. Their only secret is care. Not strenuous, but regular. In washing the hair it is not advisable to use a makeshift, but always use a preparation made for shampooing only. You can enjoy the best that is known for about three cents a shampoo by getting a package of canthrox from your druggist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. After its use the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. Your bair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you, while the stimulated scalp gains the health which insures hair growth. Advi't.

REASONS ARE ABUNDANT FOR THANKSGIVING Declares Rev. C. H. Ricketts in Rich-

spirit of thanksgiving stands forth al-most unparalleled in the history of human courage. It stands forth as an example for all time what men and women can do who have a deathless faith in the providence of God.

It is not my purpose to unfold the growth of the thankesiving spirit and feeting for the company of the compan

festival from its commencement at Plymouth Rock. I simply want to make vivid the contrast between the reasons these men had for thanking God for his goodness, and what you have. Looking at it from the human standpoint it would seem as though these men had lost nearly everything relatives, friends, health, property and a promising future outlook. Men, what have you lost this year that is at all comparable to theirs? Perhaps individually you have felt all of these losses this year, but considered as a band of men, have you seen three-fourths of your number swept away by some terribe malady? Have you met such property losses as these men met such property losses as these men did, or have you suffered like them in other respects? Now then, if they found reason in their hearts for thank-ing God for his "loving kindness and tender mercies" what ought to be our attitude toward Him who have been so highly favored?

Of course I know that the busines of the country is not in the most prompopular judgment somewhat exagger-ates this condition. According to sta-tistics there are fewer unemployed than a year ago this time. When it becomes necessary to cut down our expenses to meet our income even a lit tile it is easy to cry out about hard times. You have not been working full time, and perhaps you have had to do some close figuring to make ends meet. But haven't you had enough to eat and drink this year and enough clothes? Have you not had some of clothes? Have you not had some of the luxuries of life? Have you not been able to feed and clothe your fam-ilies and keep your children in school? Even if the bank account has not in-

Now then, while the situation from the business point of view might be more satisfactory, still do we really know much about hard times? In Inknow much about hard times? In India they can talk about hard times where men, women and children die of starvation by the thousands, in some seasons and in China, too, where periedic famines from flood or drought sweep away millions. I have an idea that little, plucky Belguim, Ged save her and bless her knows something about hard times! It might be prestiabout hard times! It might be pretty mard for the Belgians to thank God for sumed a big mass of debts incurred to Europe by the individual states. In recognition of this action a big silver statue was presented to the Republic by the bankers of Europe.

In the course of answering these descriptions of Today, a four-act drama description of Today, a four-act dram ater plant on Wednesday held under the auspices of the Y. M. C. A., and the speaker was Rev. Charles H. Ricketts, paster of the Greeneville Congressional church.

Rev. Mr. Ricketts said that on Thankegiving we all will observe the grand New England festival. It was born in a wonderful expression of faith in the goodness of Almighty God under adverse circumstances. When we look back to the autumn of 1621 and see the 5e struggling survivors of the original Pilgrim colony more dead than alive; having struggled with a live; having struggled with a hard and unyielding soil; having braved well nigh insuperable climatic conditions for these men and women to come together and praise God in the spirit of thanksgiving stands forth almost unparalleled in the history of hu-
